

Tract and Imaging Indexing Information

Tracting Information

Hand written Grantor/Grantee Book Index entry ended Feb. 26, 1993

Hand written Tract Book Index entry ended December 31, 2012

Volume and Page numbering on documents ended March 10, 2013

DATA ENTERED into GCS System begins with Document No.: 134223, Volume 158 Page 1 (Except but not limited to: Mineral, Corporate, Corner Restoration, Mortgages, Lis Pendens, Forest Crop Lands, Federal Tax Liens, Change of Names & Cemetery)

IMAGES SCANNED into the GCS System back to:

Records/Deeds: Volume 1 Page 1

Miscellaneous Books: Volume M9 Page 1 through all of Volume M17

(Except but not limited to: Mineral, Corporate, Corner Restoration, Mortgages,

Lis Pendens, Forest Crop Lands, Federal Tax Liens, Change of Names & Cemetery)

CERTIFIED SURVEY MAPS: should all be entered and scanned

GRANTOR/GRANTEE books are all scanned into the system and can be found at:

<http://www.co.forest.wi.gov/index.asp?locid=145>

Imaging Indexing

If there is not a doc# please create doc# with 3 digit volume and 3 digit page (volume O1 page 123 would be 001123). We are not doing a gen doc step because there are not that many documents without numbers.

Alpha books and volume 24 we will generate doc# for the missing and blank ones

QC

Duplicate check, for duplicates in volumes O1, O2, 4 & 5 please add 'L and volume #' to the **end** of the doc# (a duplicate doc # in volume O2 would look like...doc# 12345LO2)

We are not documenting the doc# if we put an A or letter behind them.

If there are 3 or more numbers same did one with A and one with B and nothing for one

GCS & PaperVision Exports

GCS - maximum doc# length is 10 characters

GCS - need new export format with 57 commas

Papervision - multi page tif named doc#_vol_page.tif

Vol O1

NO DOC #S

Vol O2

NO DOC #S

Vol O3

NO DOC #S
