Construction Plans

Please provide a drawing of the building below showing a cross sectional view (side view). Please show all dimensions including height.

1.

Landowner is responsible for providing identification of property lines. The corners of the building project shall be staked.

This permit will not be issued if the property lines are not clearly marked.

If the property is not appropriately marked a second inspection may be required and Forest County may charge a second inspection fee.

Submit complete land use permit application with application fee to:

**Forest County Zoning Dept.
200 East Madison Street,
Crandon, WI 54520**

IMPERVIOUS SURFACE CALCULATIONS

NR115.05 (1)e. *Impervious surfaces* reads: Counties shall establish impervious surface standards to protect water quality and fish and wildlife habitat and protect against pollution of navigable waters. County impervious surface standards shall require all of the following.

1. Application. Impervious surface standards shall apply to the construction, reconstruction, expansion, replacement or relocation of any impervious surface that is or will be located within 300 feet of the ordinary high water mark of any navigable waterway on any of the following:
 - a. A riparian lot or parcel
 - b. A non-riparian lot or parcel that is located entirely within 300 feet of the ordinary high water mark of any navigable waterway.

Line 1. Total square footage of property.....ft

NOTE: This number can be found on your tax bill in acres or a percentage of acres. Multiply the acreage by 43,560 to arrive at your total square footage. Enter on line 1.

Line 2. Total allowable impervious surface:

Line 1 x .15.....ft

Or Line 1 x .30 with mitigation or treatment planft

NOTE: Please submit mitigation or treatment plan. Any questions contact the staff in the Land and Water Dept.

Line 3. Existing Impervious surfaces (if any).....ft

"Impervious surface" means an area that releases as runoff all or a majority of the precipitation that falls on it. "Impervious surface" excludes frozen soil but includes rooftops, sidewalks, driveways, parking lots, and streets unless specifically designed, constructed and maintained to be pervious.

Line 4. Proposed Impervious surfaces:ft

Line 5. Total of Line 3 and Line 4. (Must not exceed allowable impervious surface on line 2.

.....ft

Line 6. Percent of Impervious Surface area—divide line 5 by line 1 x 100%
