## BACKGROUND ON MEETING

The federal surface transportation program requires applicants for the Elderly and Disabled Transportation Program (5310) grants, as well as state 85.21 projects must be part of a "locally-developed, coordinated public transit-human services transportation plan." This plan is required to be developed through a process that includes representatives of public, private, and non-profit transportation services, human services providers and the general public.

To maintain local eligibility for these grants, the Wisconsin Department of Transportation has developed a county meeting process to comply with federal requirements. Regional Planning Commission (RPC) planners are coordinating and conducting these meetings statewide on behalf of WisDOT and the counties as independent and objective entities. Your participation is critical for the development of a qualifying plan that will effectively serve Forest County.
