Motion by Houle to approve the minutes from the January 29, 2018 meeting, seconded by Cleereman. All present voting AYE. Motion carried.

DISCUSSION ON FUTURE OF LAND INFORMATION

Cleereman feels that Land Information Officer position would be better suited to be someone else as the work that needs to be done she does not feel she has the knowledge for and she is not comfortable doing the project that has to be undertaken in the near future starting with the corner re-establishment of Forest County.

There was discussion as to whether the position would be able to be combined with the Land Conservation with Al Murray as he is the person who is working with the GIS mapping.

The committee will meet again to discuss future plans for the Land Information position.
